TIP SHEET TEMPLATE

TESTS

1. TOPIC, CHALLENGE OR QUESTION TO BE ADDRESSED

- **How To Identify Children's Learning Styles and Intelligences**

2. KEY WORDS/GLOSSARY (with definitions)

Education – Educate to pull out from within (Each child's unique potential)

Learning Styles:

- **Visual (spatial):** You prefer using pictures, images, and spatial understanding.
- **Aural (auditory-musical):** You prefer using sound and music.
- **Verbal (linguistic):** You prefer using words, both in speech and writing.
- **Physical (kinesthetic):** You prefer using your body, hands and sense of touch.
- **Logical (mathematical):** You prefer using logic, reasoning and systems.
- **Social (interpersonal):** You prefer to learn in groups or with other people.
- **Solitary (intrapersonal):** You prefer to work alone and use self-study.

Multiple Intelligences

The theory of multiple intelligences was developed in 1983 by Dr. Howard Gardner, professor of education at Harvard University. It suggests that the traditional notion of intelligence, based on I.Q. testing, is far too limited. Instead, Dr. Gardner proposes eight different intelligences to account for a broader range of human potential in children and adults. These intelligences are:

- **Linguistic intelligence** (“word smart”)
- **Logical-mathematical intelligence** (“number/reasoning smart”)
- **Spatial intelligence** (“picture smart”)
- **Bodily-Kinesthetic intelligence** (“body smart”)
- **Musical intelligence** (“music smart”)
- **Interpersonal intelligence** (“people smart”)
- **Intrapersonal intelligence** (“self smart”)
- **Naturalist intelligence** (“nature smart”)
